

Refrigerated Food and Power Outages: When to Save and When to Throw Out

Adapted from [Keeping Food Safe During an Emergency](#) (USDA).

Is food in the refrigerator safe during a power outage? It should be safe as long as power is out **no more than 4 hours**. Keep the door closed as much as possible. Discard any perishable food (such as meat, poultry, fish, eggs, and leftovers) that have been above 40 °F for over 2 hours.

Never taste food to determine its safety! You can't rely on appearance or odor to determine whether food is safe.

Note: Always discard any items in the refrigerator that have come into contact with raw meat juices.

You will have to evaluate each item separately. Use this chart as a guide.

Food Categories	Specific Foods	Held above 40 °F for over 2 hours
